Here are some tips for using the Pop Art stamping plate:

- First, use a good quality stamping polish. I recommend Maniology [School's Out: 6-Piece Neon Stamping Art Polish Set](#).
- Next, apply a layer of polish to the design on the plate.
- Use a scraper card to remove the excess polish at a 45 degree angle, scrap fast but don't apply a lot of pressure or you risk scraping the polish out of the design.
- Also as a tip, when scraping the pop art text, I had the best luck picking up a crisp stamping design when it looked like there was a thin layer of polish that still needed to be picked up, but if I scraped a second time, it picked up too much polish and the text lines were faint.
- Pick up the image with your stamper using a rolling motion. If you haven't mastered rolling, you can try picking up the image by pushing down the stamper to the stamping plate.
- Remove any extra designs picked up on the stamper with a lint roller, tape, or the Maniology stamping practice station.
- Transfer the image to your nail.
- Lastly, Apply Maniology's [smudge free top coat](#) to seal the design.

With a little practice, you will be able to create stunning nail art with the Pop Art stamping plate.

If you are looking for a high-quality stamping plate with a wide variety of designs, I would definitely recommend the Pop Art stamping plate from Maniology. It is a great choice for anyone who loves nail art and wants to create fun and stylish designs.
